## SUMMARY

Results-driven Angular Developer with 4+ years of experience in designing and delivering scalable, high-performance enterprise web applications. Strong expertise in Angular, TypeScript, RxJS, and NgRx state management for building reactive and maintainable frontend architectures. Proven experience in RESTful API integration, UI performance optimization, and developing responsive user interfaces. Experienced in Agile/Scrum environments, maintaining clean and reusable code standards, and mentoring junior developers to ensure adherence to best practices.

## PROFESSIONAL EXPERIENCE

### Rawdata Technologies

**Software Engineer** *Dec 2021 - Present*

- Lead front-end development of **maritime ERP web applications** using Angular.
- Implemented **state management** with NgRx to handle complex UI and data synchronization efficiently.
- Collaborated with product, design, and backend teams to translate business requirements into robust solutions.
- Mentored junior developers and conducted **code reviews** to maintain performance and code quality.
- Optimized application performance and UI responsiveness for large data-driven modules.

### Key Projects:

- **InTEUtion:** Cloud-based ERP / operations platform built specifically for the shipping, container, and liner industries. (implemented modular architecture and NgRx-based state management).
- **Customer Portal:** Web platform for managing shipping requests and quotes with advanced form handling and validation using Reactive Forms.

### Prvak Technology Solutions Pvt. Ltd

**Angular Intern** *Sep 2021 - Dec 2021*

- Assisted in front-end development for **EPEX**, an e-commerce web platform.
- Implemented dynamic UI components using Angular Material and REST API integrations.

### Aitrich Technologies

**Angular Intern** *May 2021 - Aug 2021*

- Developed a **food-ordering application** using Angular and JHipster.
- Enhanced form validations, routing, and service communication between UI modules.

## TECHNICAL SKILLS

### Programming Languages:

TypeScript, JavaScript, HTML

### Frameworks & Libraries:

Angular, NgRx, RxJS, Angular Material, PrimeNG, Bootstrap

### Styling Technologies:

CSS3, Sass, SCSS, Figma

### Tools & Platforms:

Angular CLI, NPM, Visual Studio Code

**Version Control:**  
GitHub, Bitbucket

**Project Management Tools:**  
JIRA, Confluence

**Expertise:**

- Strong proficiency in Angular and related technologies (RxJS, etc.).
- Experience with RESTful APIs and backend integrations.
- Familiarity with Agile/Scrum methodologies.

## KEY RESPONSIBILITIES

- Develop and maintain web applications using Angular.
- Manage and analyze client requirements to ensure optimal implementation.
- Mentor junior developers and provide technical guidance.
- Collaborate with back-end developers, designers, and product teams.
- Design and implement responsive user interfaces.
- Optimize application performance for speed and scalability.
- Stay updated on new technologies and industry trends.
- Troubleshoot and fix application issues.
- Work with the QA team to ensure bug-free software.
- Participate in Agile/Scrum meetings for planning and coordination.
- Conduct code reviews to ensure quality and best practices.

## AWARDS

**Best Frontend Developer**  
**Rawdata Technologies, Kerala, India**  
Recognized for excellence in developing intuitive, responsive, and high-performance web applications.

## EDUCATION

**Bachelor Of Technology, Electrical and Electronics Engineering**  
**APJ Abdul Kalam Technological University(Kerala Technological University)** Mar 2015 - Jun 2019

## CERTIFICATION

**Web-Development**  
**Aitrich Technologies, Kerala, India**
